Frontend Developer -Texas Imaginationology

March 2022 - Sept 2022

Developing and maintaining web applications using HTML and other related technologies

PROJECTS

ibiSAP

ibisap.rajabhoj.com.np

IbiSAP is a two-tier Django-based ERP ecosystem for Nepal. Enterprise IbiSAP serves larger companies priced out of SAP Business One's licensing, offering Nepali-miti support and CBMS-ready features tailored to local business needs. Retail IbiSAP solves a different pain point server and maintenance costs – through a multi-tenant SaaS model: one centralized database, where business owners simply register and get their own isolated, customizable database instance instantly, no infrastructure required.

Digital Library

library.rajabhoj.com.np

Stu-pack website - UI/UX & BACKEND

Stu_mart is the one marketplace only focused for the Student to buy and sell the goods which are used by the Student.

- **PrakritiPrabhav** – Tour and Travel using Django
<https://prakritiprabhav.com/>

Explore Hidden Nepal is a tourism web application focused on promoting the hidden and unexplored destinations of Nepal. International tourists can discover destinations, explore local experiences, view tour packages, and book trips with digital tickets. Local people and guides can add new destinations and create tourism packages, while the Admin manages users, destinations, packages, bookings, and tickets through a centralized dashboard. The platform aims to connect tourists with local communities and showcase the unique beauty and culture of Nepal to the world.

- **News portal** - using python Django framework

News Portal is a website that provides up-to-date news articles, stories, and information on various topics. It typically includes features like categorization, user comments, and multimedia content. In a nutshell, it's a digital platform where users can access news from different sources in one place.

- **<https://bajhangdistrict.com/>** - UI/UX

This website is to show the tourism Destination and Information of Bajhnag District of Nepal.

- **Aastha Footwear** - Website using Django

aasthafootwear.com.np
